R

President Kennedy.

Sir: I as one lone American citizen (but I am sure, there are many more who feel as I do) demand that the C.I.A. and the military be brought home from South Vietnam, and that all aid be stopped immediately and that includes the 3,000,000 a year that the C.I.A. pays to Ngo Dinh Diem's private police force which is kept to kill Buddhists and raid their places of worship, as well as the \$500,000,000 a year which we are spending there.

No one elected you Emperor of the World it was just president of the U.S. and on that assignment you have failed miserably. If the country manages to hang together in spite of you, that will be remedied next year.

disgustingly

(Mrs) Anne O'Connor.
